

Celebrate New Years

with Pine Forest Automotive Center

As 2012 begins **Pine Forest Automotive Center**, locally owned and operated, will celebrate 25 years of service to the Pensacola area. Thanks to our loyal customers, what started as a paint and body shop has evolved into a full service automotive center. We now offer collision services, complete maintenance and repair work, as well as used car sales. This provides our valued customers the convenience of having all three services at one location.

Our **collision center** works with all the major insurance carriers. We still offer estimates at no charge, and can get your vehicle back to pre-accident condition. Our collision center is an I-CAR Gold shop, which means you can trust that the quality of our workmanship will exceed your expectations. Training our body technicians in the latest techniques ensures that we keep our standards high and our customers happy.

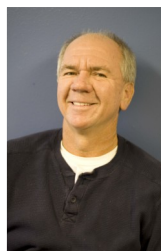

Our **automotive repair center** can handle all of your scheduled maintenance as well as any repairs your vehicle requires. Having a master technician on staff allows us to handle even the most difficult problems. We are **AAA approved** and ready to help. From oil changes to complete engine replacements, our service technicians have the skills to keep you riding with pride. My son Adam Medley is our service writer, and will be happy to schedule an appointment for you to have your vehicle inspected.

If a **used car** is in your future let us help. You can view our inventory from our website or just come on by and experience some of the best customer service in the South. We make sure that our prices are competitive and you can trust us to sell you a vehicle that you and your family can enjoy for years to come. We service what we sell, so resolve to improve your ride with a quality pre owned car from Pine Forest Automotive Center.

Thanks again for being our customer. You are the reason we are here and we resolve to provide the highest level of care to each of you.

Come See Us,

Ed Medley
Owner

Ed Medley

Owner
24 Years

"My resolution for 2012 is to **enjoy** each day of the New Year.

Working and playing along Pensacola's gulf coast will make keeping this resolution a breeze."

Betty Nelson

Customer Service
12 Years

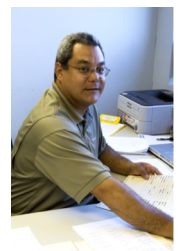

"My resolution is to continue to provide excellent customer service."

Adam Medley

Service Writer
5 years

"My resolution this year is to finish all my projects."

Ernie Angeles

General Manager

10 years

"I resolve to have more company cookouts."

PLAY THE MISSPELLED WORD GAME

We've misspelled a word in this newsletter. The first five customers to email the correct answer to collision@pineforestauto.com win a free oil change. Everyone else who emails will go into a wild card drawing, and the winner receives a **free oil change**.

Phil Blackmon
Estimator
3 Years
"Take the grandkids fishing more."

Ashley Gilliland
Receptionist
2 Months
"Be kind to strangers."

Virginia Carlton
Accounting Clerk
1 Month
"Participate in more activities-volunteer."

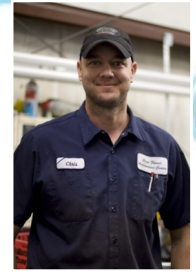

Brandon Nelson
Porter
1 Year
"Look for new challenges."

Brian Yarnell
Body Technician
22 Years
"My resolution is to gain weight."

Brianna Goodwin
Accounting Clerk
1 Year
"Focus more on my prayer life."

Chris Guilford
Service Technician
9 Years
"Spend more time with family."

New Years Car Tips

ROUTINE MAINTENANCE NOW CAN SAVE YOU MONEY LATER

Christmas has come and gone and so has the sunny days of summer. Whether you're staying next to the Gulf or headed to the closest snow covered mountains, get your car ready for the colder weather and extra miles the New Year will bring. Just remember a little preparation now can save you lots of time and money in the long run.

Before you hit the road during the New Year here are a couple tips from BeCarCare.Org. Make sure your regular maintenance is

up to date. This means taking care of any fluids that you may have neglected during the holidays. Bring your car into Pine Forest Automotive Center so we can check, change and/or top off your oil, coolant, brake and transmission fluid as needed.

Secondly, how are your brakes? Are they squeaking or is it taking you longer to stop? Have them checked during your next oil change.

Next, check to make sure all your lights are working properly and that your windshield wipers are working correctly. If your blades are more than six months old, it's probably time to install some new ones.

On top of a standard oil change, have your tires rotated and inspected also. If you've been waiting to replace your tires, now is the time. With your tires up to spec, you'll get better gas mileage and your car will have better control.

Maintain Your Coolant System

COLD TEMPERATURES TAKE A TOLL ON YOUR RADIATOR

One of the most important systems to maintain during cold weather is your coolant system (radiator). Extreme temperatures and harsh conditions can easily make your system go amiss. If you can't remember the last time your coolant system was checked

out, let us take a look. Make sure that your car's radiator pressure is tested, hoses are examined for cracks or bulges, and have your water pump replaced if your pump has more miles on it than the manufacturer recommends.

Wonder what problems your coolant system can cause? Over time, antifreeze can create a weak electrical current, which can result in oxidation and eventually failure inside of your coolant system.

Rick Wooley
Body Technician
1 Year
"My resolution is to be happier."

Jennifer Ahmed
Receptionist
8 Months
"Pay off my debt."

John Hollifield
Body Technician
2 Years
"Get organized."

Lana Williamson
